

We believe that learning is a lifelong process: a self-directed and self-paced journey of discovery. Our mission is to provide online learning services that will allow clients to access materials to unleash their potential and fully explore interests. We help both for-profit and non-profit companies and organizations transform to achieve success.

What We Offer

Learning Program Design

Complexity of the learning pathway and content

Customized Learning Pathway

Personalized learning journeys based on data reports and surveys

Instructional One-Pager

Printable walkthroughs that can be used at learner's own pace

Guide

Detailed reference or a very simple overview for a small subset of features

Infographic One-Pagers

Printable visually compelling communication medium to take deep data and present it in a visual shorthand

Mini-Videos

Prerecorded videos that provide digital walkthrough and/or testimonials that learners can use on their own time

Forums and Learning Communities

Build a learning community for facilitating questions, answers and knowledge exchange

Branding

Brand learning assets with logos and colors

Certificates

Issue certificates with design, signature, and brand

Quizzes & Assessments

Adding quizzes & assessments to make learning more engaging

All our products are personalized to aid learning, where growth is cultivated and regularly nurtured. For too many, on the job training and formal education from traditional universities has become dreary and lifeless, and lacking in the transferable skills that are vital for industry specific needs. Pricing for packages will be contingent upon development time, level of interactivity and complexity of content.
